PHONE CASE

Aimo Series (Non-Magnetic Clear Back) Case

Material: TPU+PC

Features: Ultra Clear back panel
Precision holes for full lens protection;
Wear-resistant and drop-proof;
Ultra-Durable, comfortable to hold.

Aimo Series Non-Magnetic Case

Material: TPU+PC

Features: Frosted back panel with flowing line texture;
Precision holes for full lens protection;
Wear-resistant and drop-proof;
Anti-fingerprint, comfortable to hold.

Aimo Series Magnetic Case

Material: TPU+PC+Magnet

Features: Frosted back panel with flowing line texture;
Precision holes for full lens protection;
Wear-resistant and drop-proof;
Anti-fingerprint, comfortable to hold;
Support magnetic charging.

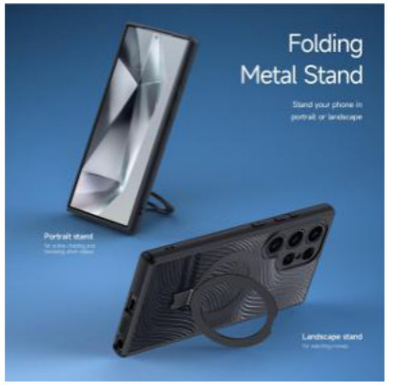

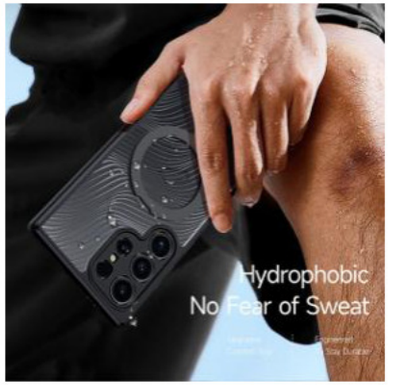

Aimo Series Magnetic Stand Case

Material: TPU+PC+Magnet+Aluminum Alloy

Features: Frosted back panel with flowing line texture;
Precision holes for full lens protection;
Wear-resistant and drop-proof;
Anti-fingerprint, comfortable to hold;
Support magnetic charging;
Folding mobile phone stand, can support mobile phone horizontally/vertically.

Clin Series Magnetic Case

Material: TPU+PC+Magnet

Features: Made of high-quality Bayer raw materials;
Clear and translucent, resistant to yellowing;
Four-corner drop-proof airbags;
Anti-fingerprint, comfortable to hold;
Support magnetic charging.

Rafi II Series Magnetic Stand Case

Material: TPU+PC+Stainless Steel+Magnet

Features: Double card pocket design, the inner card pocket has RFID-blocking function;
Wear-resistant and drop-proof;
Anti-slip frame, comfortable to hold;
Support magnetic charging;
Folding mobile phone stand, can support mobile phone horizontally/vertically.

Yind Series Non-Magnetic Case

Material: TPU+PC

Features: Made of high-quality Bayer raw materials;
Translucent, matte finishes;
Four-corner drop-proof airbags;
Anti-fingerprint, comfortable to hold.

Yind Series Magnetic Case

Material: TPU+PC+Magnet

Features: Made of high-quality Bayer raw materials;
Translucent, matte finishes;
Four-corner drop-proof airbags;
Anti-fingerprint, comfortable to hold;
Support magnetic charging.

Yind Series Magnetic Case with Ring Stand

Material: TPU+PC+Magnet+Aluminum Alloy

Features: Made of high-quality Bayer raw materials;
Translucent, matte finishes;
Four-corner drop-proof airbags;
Anti-fingerprint, comfortable to hold;
Support magnetic charging;
Stand your phone in portrait/landscape orientation.

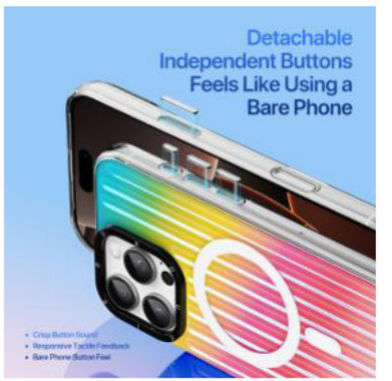

Zest Series Magnetic Case

Material: PET+TPU+PC+Magnet

Features: Premium Shockproof Corner Protection;
MagSafe & Magnetic Charging Compatibility;
Fashionable Gradient Color Design;
Bare-Phone Tactile Button Experience;
Anti-Yellowing & Durable TPU Material.

Shld Series Magnetic Case

Material: TPU+PC+Magnet

Features: 3m Military-Grade Drop Protection TPU airbag design, rigorously tested.
36 Neodymium Magnets Instant MagSafe-compatible snap-on.
Metallic Matte Texture Scratch-proof, sweat-resistant grip.
Honeycomb Cooling Vents Enhanced heat dissipation.
Precision 1:1 Fit Raised edges shield screen/camera.

Pocard Series Magnetic Case

Material: TPU+PC+PU+Magnet

Features: Built-in card holder for your credit or transit card, ready for spontaneous journeys

Diamond anti-slip pattern and soft PU leather offer a comfortable, secure grip

0.5mm raised edges protect the screen and camera from scratches during drops

Slim and lightweight with shockproof protection, plus wireless charging compatibility

Gloss and matte finish with fingerprint and sweat-resistant coating keeps it clean

MORO SERIES

Magnetic
肤感磁吸壳
Smooth Back Case

UV印刷图案丨磁吸充电丨铝合金按键

UV Printed Pattern | Magnetic Charging | Aluminum Alloy Buttons

Moro Series Magnetic Case

Material: TPU + PC + PU Leather

Features: Strong magnetic ring for instant attachment, compatible with various magnetic accessories

Full-body drop protection with edge air cushions to absorb impact

High-efficiency cooling backplate with built-in airflow structure to prevent overheating

Fine PU leather + UV printed pattern for a textured, dimensional feel

Aluminum alloy buttons and camera ring, durable and color-fast

Skin Pro Series Folio Case

Material: PU+TPU

Features: Simple style, silky PU leather, comfortable to touch;
Provide 360° comprehensive protection for mobile phone;
Built-in single card pocket;
Can be used as a mobile phone stand.

Skin X Pro Series Folio Case

Material: PU+TPU+PC+Magnet

Features: Simple style, delicate PU leather;
Transparent back panel;
Anti-fingerprint, resistant to yellowing;
Double card pocket design with RFID-blocking function;
Magnetic closure;
Provide 360° comprehensive protection for mobile phone.

Skin X Pro Series Magnetic Case

Material: PU+TPU+PC+Magnet

Features: Simple style, delicate PU leather;
Transparent back panel;
Anti-fingerprint, resistant to yellowing;
Double card pocket design with RFID-blocking function;
Magnetic closure;
Provide 360° comprehensive protection for mobile phone;
Support magnetic charging.

Skin X Pro Series Magnetic Case with 360° Ring Stand

Material: PU+TPU+PC+Magnet+Aluminum Alloy

Features: Simple style, delicate PU leather;
Transparent back panel;
Anti-fingerprint, resistant to yellowing;
Double card pocket design with RFID-blocking function;
Magnetic closure;
Provide 360° comprehensive protection for mobile phone;
Support magnetic charging;
The 360° ring stand ensures your phone remains stable no matter the viewing angle.

Piel Series Silicone Magnetic Case

Material: TPU+PC

Features: Liquid silicone material, soft and skin-friendly, non-slip and fingerprint-resistant with a delicate feel

Built-in N52 strong magnets for secure attachment, compatible with magnetic charging accessories

Full hinge coverage, fits snugly around the hinge for smooth folding and unfolding

Three-layer reinforced structure (liquid silicone + PC support + microfiber lining) effectively absorbs impact

Corner airbag design, screen and camera raised by 2mm, all-round drop protection

Skin X Pro Series Magnetic Case for Foldable Phone

Material: PU+TPU+PC+Magnet+Aluminum Alloy

Features: World's first folio case supporting MagSafe, built with 38 powerful magnets for secure attachment
Card pocket with RFID-blocking material, protects personal information and property
Premium PU leather with soft TPU frame, oil-resistant and fingerprint-resistant, comfortable grip
Hard PC+PET backplate, scratch-resistant and warp-resistant, offers 360° full-coverage drop protection
Raised 0.5mm edges for screen and camera protection against scratches and wear

Hivo Series Real Leather Folio Case

Material: Cowhide+PU+TPU

Features: Genuine leather, comfortable to the touch;
Provide 360° comprehensive protection for mobile phone;
Built-in dual card pockets, both with RFID-blocking function;
Magnetic closure;
Can be used as a mobile phone stand.

Lawa Series Leather Wallet Case

Material: Wallet: leather + microfiber + metal / Case: TPU + PC

Features:
Selected high-quality cowhide with dense stitching, comfortable to touch and elegant to look;
The magnetic back cover can be used alone after removal, and supports magnetic charging;
It is equipped with a short mobile phone lanyard, which can be hung on the wrist;
The wallet has a zipper, which can store a large amount of cash, cards and even coins.

Fort Series Folding Folio Case

Material: PU+PC

Features: Box-style full-coverage design protects the hinge and all four sides for smooth and secure opening and closing
Premium eco-friendly PU leather with transparent PC frame, fine non-slip texture and skin-friendly feel
Built-in card slot for storing daily cards or small change, convenient for travel
Precise full-wrap lens module with 2mm raised ring, protects against scratches without affecting image quality
Rigid PC frame fits tightly with PU-wrapped corners for double shock-absorbing drop protection

Bril Series Folding Folio Case

Material: PU+PC

Features: One-piece design;
Provide 360° comprehensive protection for mobile phone;
Does not affect the folding of mobile phone;
Stylish design, delicate feel.

Bril Series Folding Folio Case

Material: PU+PC

Features: One-piece design;
Provide 360° comprehensive protection for mobile phone;
Does not affect the folding of mobile phone;
Magnetic closure;
Can be used as a mobile phone stand.

Bril Series Folding Folio Case with Pen Holder

Material: PU+PC

Features: One-piece design;
Provide 360° comprehensive protection for mobile phone;
Does not affect the folding of mobile phone;
Magnetic closure;
Can be used as a mobile phone stand;
Samsung S Pen Fold Edition can be stored in the pen holder.

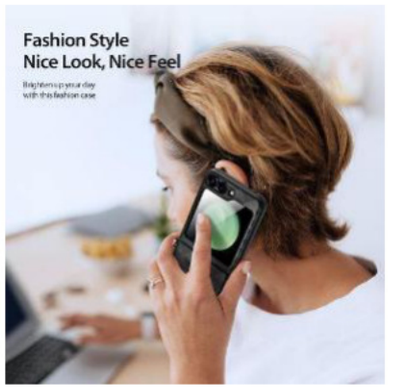

Fitt Series Folding Folio Case

Material: PU+TPU

Features: Two-piece design for easy installation;
Provide 360° comprehensive protection for mobile phone;
Does not affect the folding of mobile phone;
Stylish design, delicate feel.

Fitt Series Folding Folio Case

Material: PU+PC

Features: One-piece design;
Provide 360° comprehensive protection for mobile phone;
Does not affect the folding of mobile phone;
Magnetic closure;
Can be used as a mobile phone stand.

STEX Series Folding Folio Case

Material: PU+PC

Features: Light-responsive shimmering star & laser motifs;
Magnetic detachable design, zero folding hindrance;
Dual portrait/landscape stand for hands-free use;
360° full-coverage drop protection;
Microfiber lining + rounded edges for premium grip.

Vyne Series Folding Folio Case

Material: PU+TPU

Features: Custom-made for Samsung Z Fold8 Ultra, folds perfectly without hindering hinge movement or screen use

Box-style full-coverage structure with thickened edges and corners for reliable drop protection

Built-in N52 strong magnets on the back, supports magnetic charging devices with stable attachment

Precision electroplated camera frame and side buttons, mirror-like glossy finish with sensitive response and fade resistance

PU back cover with fine texture, comfortable grip and fingerprint-resistant, balancing business style and fashion

EXPN Series Folding Folio Case

Material: TPU+PC+Magent

Features: Skin-feel spray oil craftsmanship delivers comfortable, bare-phone-like grip
Precision camera hole design protects against scratches and bumps
Magnetic attachment enables wireless charging and unobstructed unfolding
Flush screen frame allows smooth swiping without obstruction
1:1 mold aligns perfectly with ports and buttons, ensuring full functionality

Kind Series Folding Folio Case

Material: Fiberglass+PC+Magnet+TPU

Features: Matte back- panel resists sweat and fingerprints for refreshing comfortable grip

360° rotatable stand supports free multi- angle landscape and portrait viewing

Built-in magnetic ring offers strong suction, compatible with magnetic accessories and wireless charging

Flush frame enables smooth swiping; hinge protection without obstructing screen unfolding

Stand supports 110° opening adjustment without interfering with wireless charging

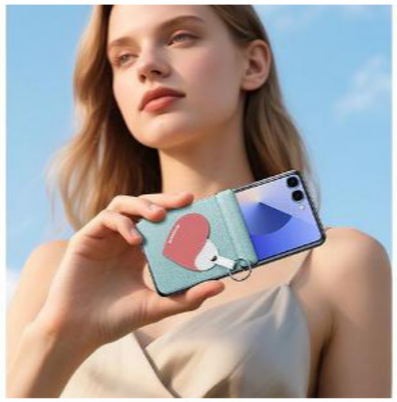

Luvy Series Folding Folio Case

Material: PU+PC

Features: Metal Ring + Strap
One-handed grip & anti-loss portability
Hinge-Aligned Magnets
Secures when folding/unfolding, full-coverage protection
Detachable Smooth-Fold Design
Flexible positions, zero sticking
Skin-Friendly Dual Layer
Leather-like exterior + scratch-proof velvet interior
3 Fresh Colorways
Stylish options for personal expression.

Luvy Series Case

Material: Aluminum Alloy + PU Leather + TPU

Features: Built-in 360° rotating metal finger ring for secure one-handed grip

Full-border air cushion provides 360° drop protection and impact buffering

6 fresh colors and original patterns for daily style matching

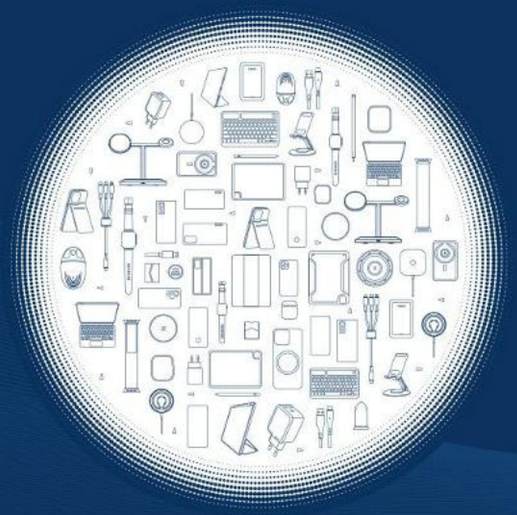

High-efficiency heat dissipation back panel with built-in airflow structure

Fine PU leather and aluminum alloy offer comfortable touch and durability

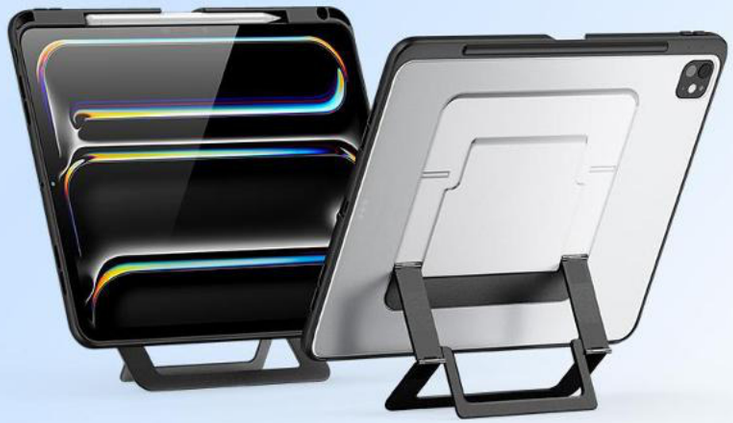

TABLET CASE

Asix Series Tablet Case

Material: TPU+PC+Alloy

Features: Multi-angle adjustable stand: Supports landscape/portrait viewing and an ideal angle for writing/drawing, lifts ~4.5cm.
Triple-layer full protection: 3mm thickened anti-bend backplate, air-cushioned corners for drop protection, and TPU soft edges against scratches.
Slim and portable design: Nearly bare-tablet feel with curved edges for a comfortable, fatigue-free grip.
Upgraded anti-fingerprint matte finish: Dry-touch texture that resists sweat and fingerprints.
Built-in stylus slot with magnetic charging compatibility: Dedigned slot holds stylus securely without interfering with magnetic charging.

Asix Series Tablet Case （6 Colors）

Material: TPU+PC+Alloy

Features: Multi-angle adjustable stand: Supports landscape/portrait viewing and an ideal angle for writing/drawing, lifts ~4.5cm.
Triple-layer full protection: 3mm thickened anti-bend backplate, air-cushioned corners for drop protection, and TPU soft edges against scratches.
Slim and portable design: Nearly bare-tablet feel with curved edges for a comfortable, fatigue-free grip.
Upgraded anti-fingerprint matte finish: Dry-touch texture that resists sweat and fingerprints.
Built-in stylus slot with magnetic charging compatibility: Dedigned slot holds stylus securely without interfering with magnetic charging.

Vers Series Tablet Case

Material: PU+TPU

Features: 4-mode stand: portrait/floating elevation/landscape/drawing for multi-scenario use

4.5cm ergonomic raised viewing angle, work/watch without neck strain

360° all-around shock absorption protects against bumps and drops

Auto wake/sleep + magnetic pen slot for power saving & secure storage

Ultra-lightweight soft TPU edges, effortless installation and comfortable grip

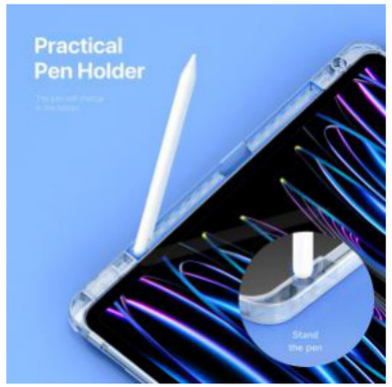

Unid Series Tri-fold Case

Material: PU+TPU+PC

Features: Made of high-quality solvent-free PU leather;
Scratch-resistant and wear-resistant;
Anti-fingerprint, delicate to touch;
Transparent back panel, resistant to yellowing;
Built-in pen holder;
Provide 360° comprehensive protection for tablet;
Magnetic closure;
With automatic wake/sleep function;
Can be used as a tablet stand to support the tablet horizontally.

Unid Series Color-Printed Tri-fold Case

Material: PU+TPU+PC

Features: Made of high-quality solvent-free PU leather;
Scratch-resistant and wear-resistant;
Anti-fingerprint, delicate to touch;
Transparent back panel, resistant to yellowing;
Built-in pen holder;
Provide 360° comprehensive protection for tablet;
Magnetic closure;
With automatic wake/sleep function;
Can be used as a tablet stand to support the tablet horizontally.

Toby Series Tri-fold Case

Material: PU+TPU+PC

Features: Silky leather, light and thin design;
Scratch-resistant and wear-resistant;
Anti-fingerprint, delicate to touch;
Transparent back panel, resistant to yellowing;
Built-in pen holder;
Magnetic closure;
Provide 360° comprehensive protection for tablet;
With automatic wake/sleep function;
Can be used as a tablet stand to support the tablet horizontally.

Magi Series Multi-angle Stand Case

Material: PU+TPU+PC

Features: The front cover is removable and the back cover can be used separately;
Scratch-resistant, wear-resistant, anti-fingerprint;
Transparent back panel, resistant to yellowing;
Built-in pen holder;
Magnetic closure
Provide 360° comprehensive protection for tablet;
With automatic wake/sleep function;
There are six support methods to support the tablet horizontally/vertically

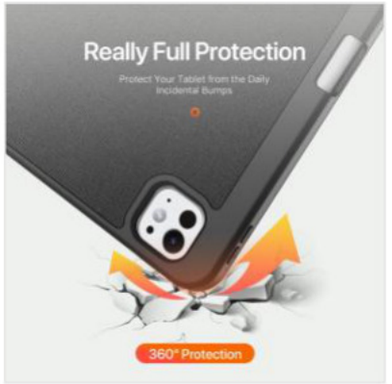

Domo Series Tri-fold Case

Material: PU+TPU

Features: Leather is scratch-resistant and wear-resistant, anti-fingerprint;
Built-in pen holder;
Magnetic closure;
Provide 360° comprehensive protection for tablet;
With automatic wake/sleep function;
Can be used as a tablet stand to support the tablet horizontally.

Panda Series Kids Case

Material: EVA

Features: Cartoon image, specially designed for children;
Environmentally friendly EVA material, safe and non-toxic;
Scratch-resistant, wear-resistant, anti-fingerprint, washable;
Flexible material, easy to install the remove the tablet;
Very light, children can lift it with one hand;
Optional shoulder strap;
Provide 360° comprehensive protection for tablet;
With pen holder;
Can be used as a tablet stand to support the tablet horizontally.

Puff Series Kids Case

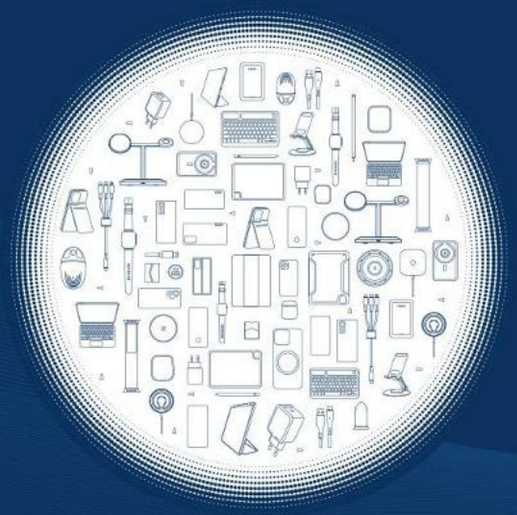

Material: EVA

Features: Eco-friendly EVA material, non-toxic and odorless, ensuring child-safe reliability.
Full-coverage anti-drop design with soft rebound edges and reinforced corners.
Dual-use triangle stand (video/drawing modes) for hands-free convenience.
Lightweight build and built-in handle for effortless outdoor portability.
Washable material, easy to clean, and maintains hygiene long-term.

TABLET PERIPHERALS

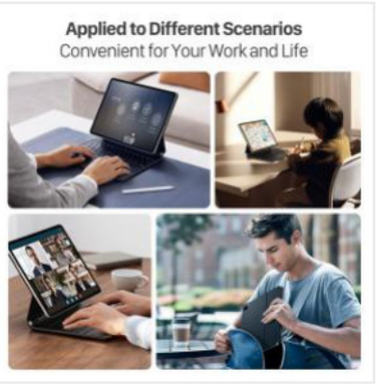

MK Series Magnetic Keyboard

Material: PU

Features: Scissor structure keys, comfortable to type;
Both a keyboard and a protective case;
Suspended to support tablet;
Bracket angle adjustable;
Built-in touchpad supports touch gestures;
Colorful LED backlight breathing light, very cool.

MK Pro Series Magnetic Keyboard

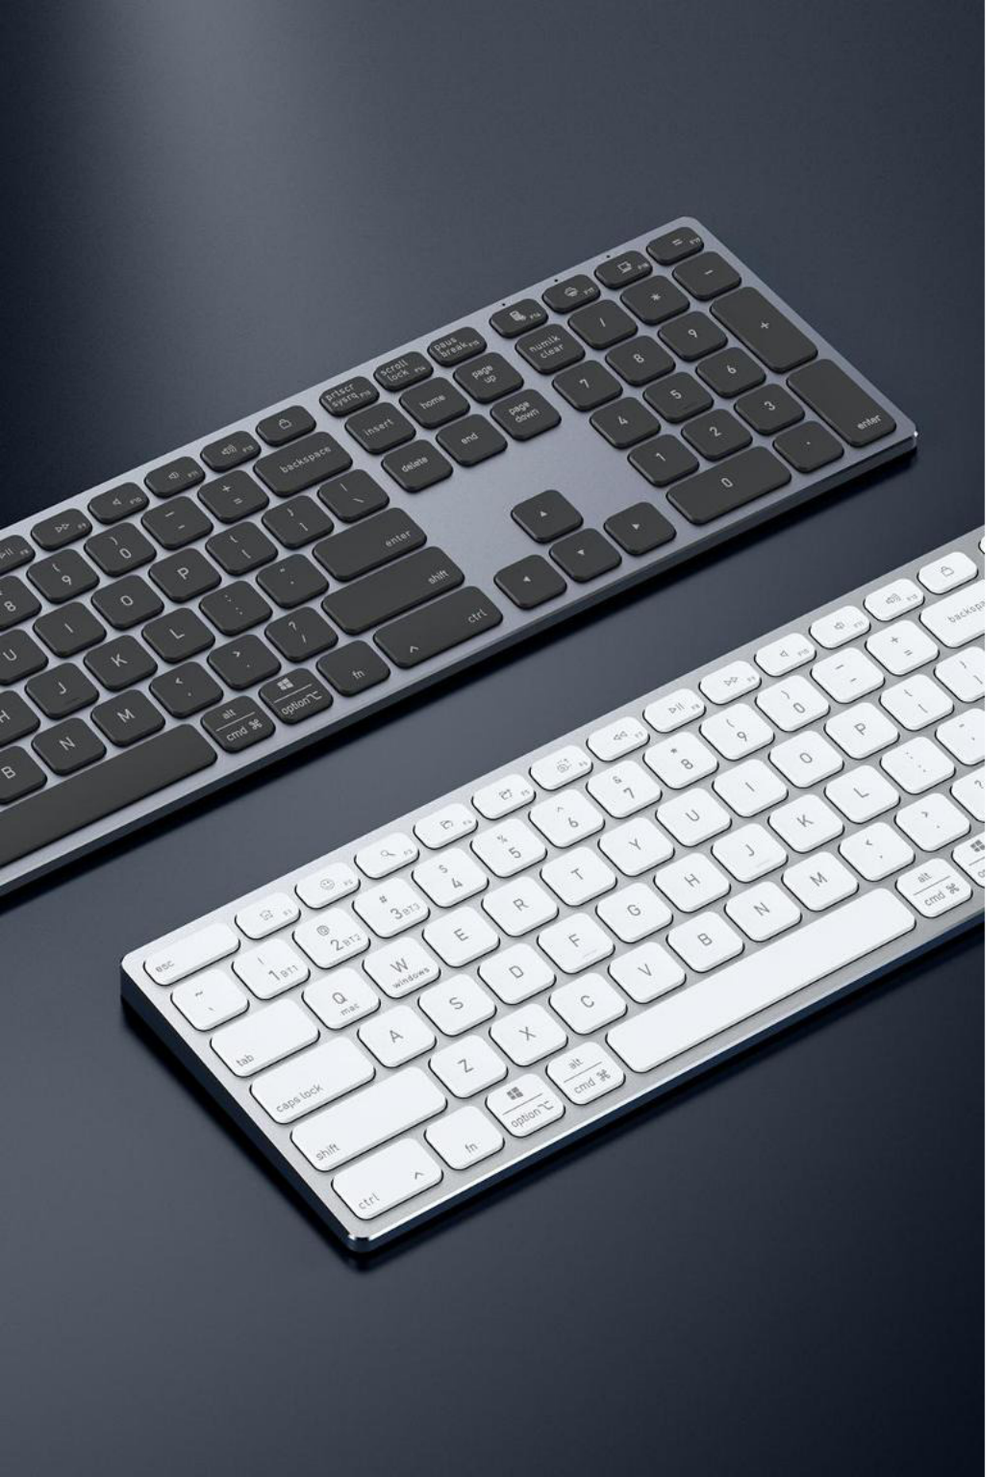

Material: Aluminum alloy

Features:3mm ultra-thin body, corrosion/scratch-resistant with armor-like durability;
Instantly transforms between keyboard, stand, and case. Strong magnets secure tablet at any angle;
Multi-touch gestures (scroll, zoom, task-switch) for seamless productivity;
Quiet 1.5mm scissor keys, oil-resistant keycaps, and dreamy 7-color backlight;
Auto power on/off, 15.5mm slim profile, 60-day standby with 500mAh battery.

LK Series Multi-function Keyboard

Material: Aluminum alloy+PC+ABS

Features: The keyboard features silent keys and an aluminum alloy shell, providing sturdy and durable construction with quiet and responsive operation;

Supports simultaneous connection to three devices, allowing efficient switching between devices with one-key operation for added convenience;

Equipped with a Type-C interface, it offers fast charging with 2 hours of charging providing approximately 130 hours of continuous working time, and includes an auto sleep mode for power saving.

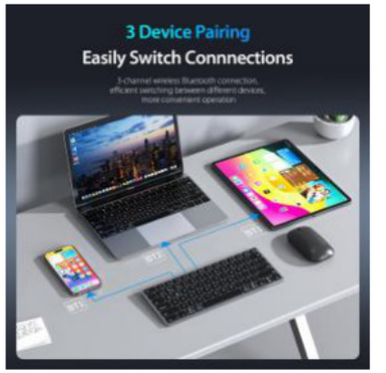

LK mini Series Aluminum Alloy Wireless Keyboard

Material: Aluminum alloy+PC+ABS

Features: Lightweight and portable, only 268g, easy to carry
Long battery life, 2 hours charging for approx, 130 hours of use
Multi-device pairing, supports Bluetooth switching for 3 devices
Quiet scissor-switch keys, silent and responsive
Ergonomic design, comfortable tilt angle, reduces fatigue

LK Pro Series Aluminum Alloy Wireless Keyboard With TouchPad

Material: Aluminum alloy+PC+ABS

Features: Supports Bluetooth 5.0 and Wireless 2.4G, connects to three devices simultaneously with one-key switching.
Saves space, flexible operation, supports both numeric input and cursor control.
Type-C port, 2-hour full charge, up to 130 hours of use, and about 90 days standby time.
Aerospace-grade aluminum alloy unibody,
only 5mm at thinnest point, premium feel and durable.
Compatible with Windows/Android/Chrome OS and iOS/iPadOS/macOS systems.

CK Series Transparent Keyboard

Material: Acrylic

Features: Scissor structure keys, comfortable to type;
Colorful LED backlight breathing light, very cool;
Thin, light and portable;
Real-time display of battery power;
Can connect to three devices at the same time via Bluetooth and switch easily with one click.

CK Pro Series Surface Pro 11/10/9/8/X Touch Keyboard

Material: TPU+PU

Features: Powerful magnetic attachment ensures secure and effortless installation/removal;
Dual modes (magnetic/detached) for seamless productivity and flexibility;
Scissor-switch keys provide quiet, responsive, and cushioned typing;
7-color dynamic backlight with 3 adjustable brightness levels;
Long-lasting battery with USB-C fast charging for uninterrupted use.

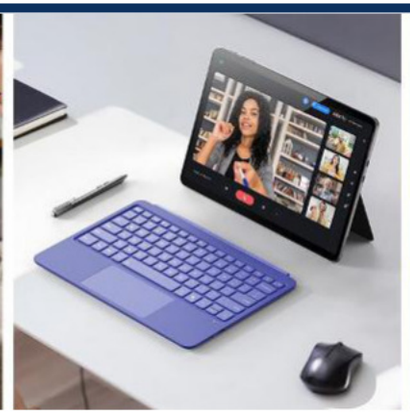

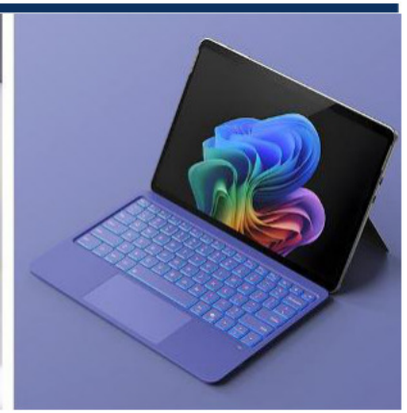

CK Pro Series Surface Pro 12 Magnetic Keyboard

Material: TPU+PU

Features: Powerful magnetic attachment ensures secure and effortless installation/removal;
Dual modes (magnetic/detached) for seamless productivity and flexibility;
Scissor-switch keys provide quiet, responsive, and cushioned typing;
7-color dynamic backlight with 3 adjustable brightness levels;
Long-lasting battery with USB-C fast charging for uninterrupted use.

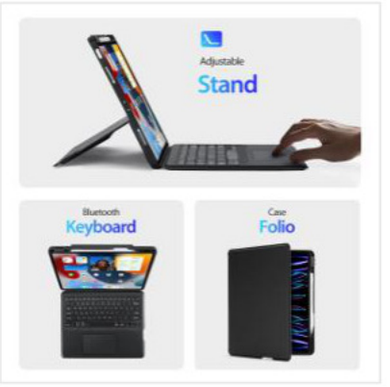

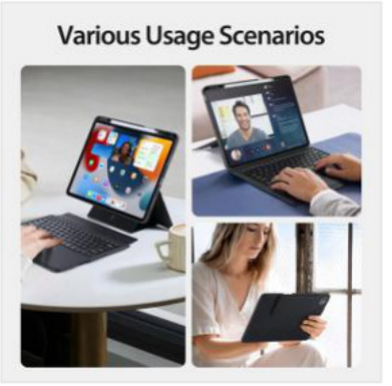

DK Series Magnetic Keyboard Case

Material: PU+TPU

Features: Scissor structure keys, comfortable to type;
It is both a keyboard and a protective case, thet are magnetically connected and can be detached;
Built-in pen holder;
Four stand modes, can support the tablet horizontally/vertically;
Bracket angle adjustable;
Built-in touchpad supports touch gestures.

OK Series Multi-function Keyboard

Material: PU+ABS

Features: Scissor structure keys, comfortable to type;
Comes with removable keyboard cover;
The protective cover can be folded up to serve as a mobile phone/tablet stand;
Thin, light and portable;
Built-in foldable touchpad supports touch gestures;
Can connect to three devices at the same time via Bluetooth and switch easily with one click.

OK Fold Series Multi-function Keyboard

Material: PU+ABS

Features: Magnetic cover converts to stand, fits multiple devices
248g ultra-light foldable design, pocket-sized portability
Bluetooth 5.0 connects 3 devices instantly, 10m stable range
1.5mm scissor-switch keys + large multi-gesture touchpad
200-hour battery life with 1-2hr Type-C fast charging

OK Flip Series Tri-fold Touch Keyboard

Material: PU+ABS

Features: Magnetic tri-fold instantly detaches into stand;

Scissor-switch keys: 1.5mm travel, quiet & responsive;

One-button switching across 3 devices, multi-OS compatible;

Smart touchpad with gestures boosts efficiency;

BT 5.2 stable transmission, Type-C fast charging.

OK Mini Series Keyboard

Material: PU+ABS

Features:

- 7mm ultra-thin design, fits easily in wallets/pockets for on-the-go carry
- One-key instant switching between PC/tablet/phone, no repetitive pairing
- Keyboard instantly transforms into a workstation for work, creativity, and entertainment
- ≥80 hours continuous use, ≥100 days standby time
- Vegan PU leather + soft lining, scratch-proof, anti-slip & easy to clean

TK Series Keyboard Protective Case

Material: PU+TPU+ABS

Features: Scissor structure keys, comfortable to type;
It is both a keyboard and a protective case. The two are magnetically connected and can be detached;
The protective cover can be used as a tablet stand, and the angle of the stand is adjustable;
Built-in touchpad supports touch gestures.

VK Series Keyboard Protective Case

Material: PU+TPU+ABS

Features: Detachable magnetic design: keyboard/stand/case
3-in-1 transformation
360° rotatable stand with 180° adjustment for landscape/portrait modes
1-inch LED display shows battery/connection/key status in real-time
8-color backlit touchpad supports 21 gestures with triple-finger shortcuts
Splash-proof keys + aircraft aluminum frame: ultimate protection

YK Series Keyboard Protective Case

Material: PU+TPU+ABS

Features: Integrated keyboard and case design transforms tablet into laptop, lightweight and portable

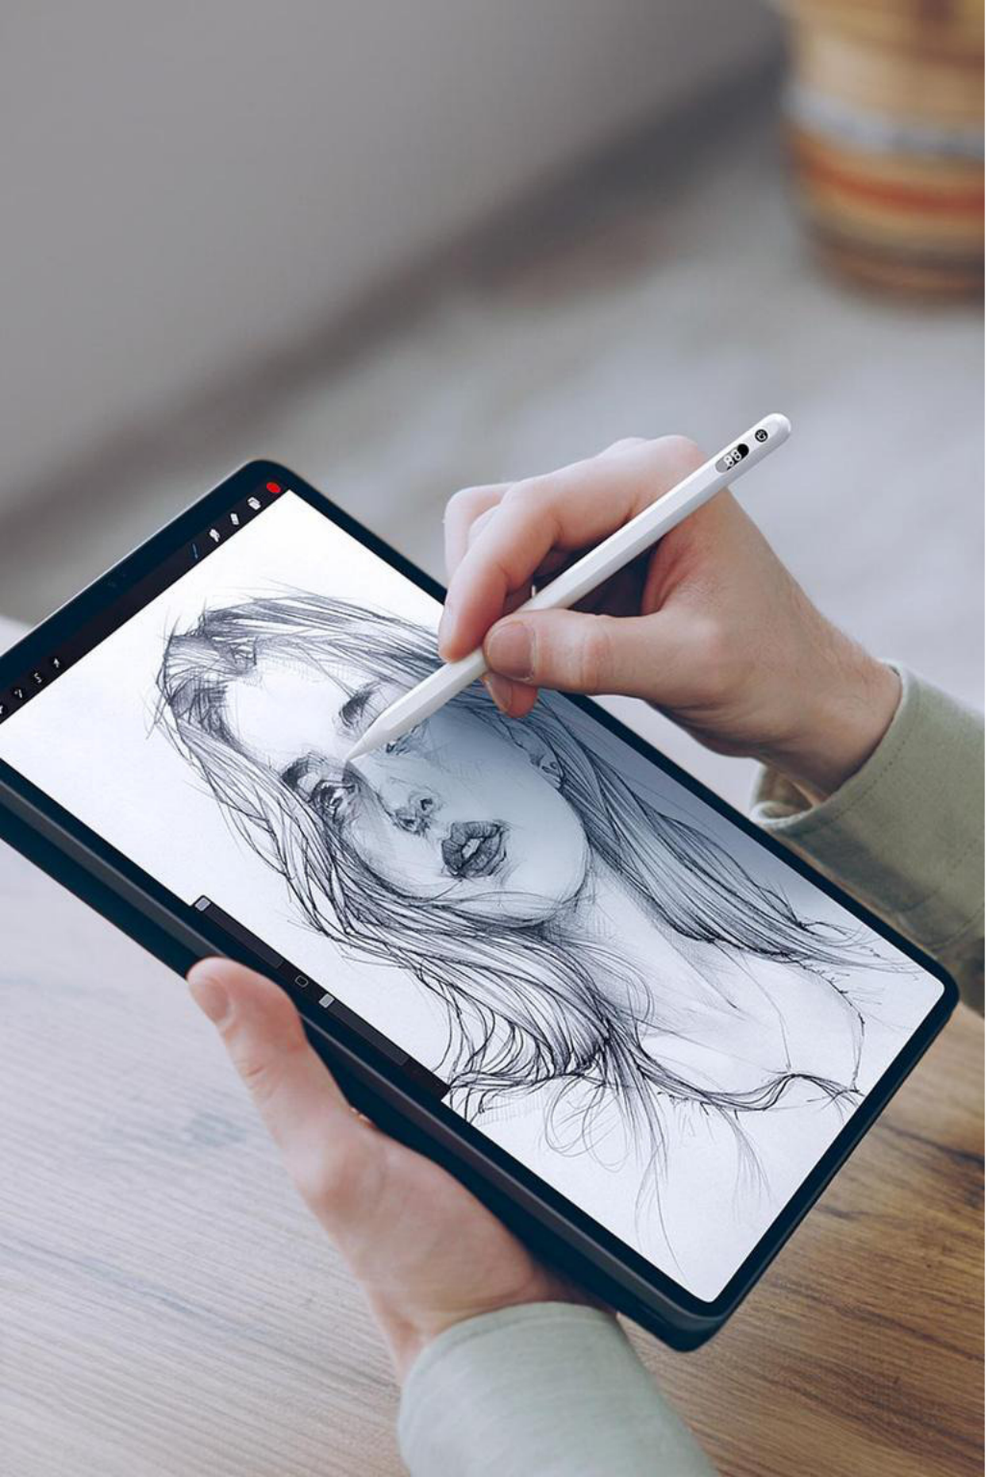

Scissor-switch keys for quiet, comfortable typing; connects up to three devices

Multi-touch trackpad supports various gestures for efficient control

Multiple adjustable angles with magnetic detachable keyboard for flexible use

Built-in 200mAh battery offers 50-hour use with USB-C fast charging

SP-05 Magnetic Charge Stylus Pen

Material: Aluminum alloy pen body + POM plastic pen tip

Features: The pen body displays battery power in real time;
No need to connect to Bluetooth, just touch the switch and it's ready to use;
Tilt pressure sensitivity allows you to draw thick and thin lines;
Full screen anti-accidental touch;
POM wear-resistant pen tip will not damage the screen;
Can be adsorbed on iPad for magnetic charging;
Compatible with a wide range of iPad models.

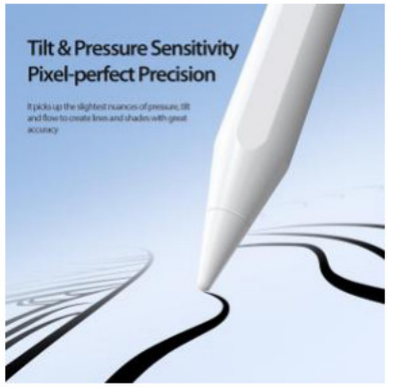

SP-06 Digital Display Stylus Pen

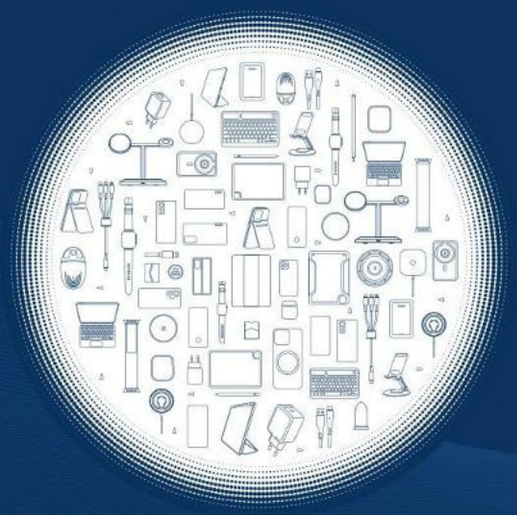

Material: Aluminum alloy pen body + POM plastic pen tip

Features: The pen body displays battery power in real time;
No need to connect to Bluetooth, just touch the switch and it's ready to use;
Tilt pressure sensitivity allows you to draw thick and thin lines;
Full screen anti-accidental touch;
POM wear-resistant pen tip will not damage the screen;
Can be adsorbed on iPad;
Compatible with all iPad models including iPad 2024.

LAPTOP ACCESSORIES

PLI Series Tyvek Sleeve for Laptop

Material: DuPont paper + encrypted soft felt

Features: Eco-friendly water-resistant DuPont paper, recyclable and biodegradable

Lightweight and tough, tear-resistant and durable

Surface can be written or drawn on for fashionable personal expression

Custom encrypted soft felt interior, shock-absorbent for enhanced protection

Easy to carry, adds no extra weight

AURA Series Handbag for Laptop

Material: PU leather + suede

Features: Slim and lightweight design: only 5mm thick, as light as 230g, easy for daily carry.

Double-layer storage with scientific zoning: main compartment for laptop, secondary for accessories, keeps items organized.

Skin-friendly PU leather and suede interior: comfortable feel, soft and non-damaging to devices.

Simple and versatile design: suitable for various scenarios like work and travel.

Exquisite details: highly elastic rubber band and solid wood button, durable and aesthetic.

EDGE Series Shoulder Laptop Bag

Material: polyester + PE Foam + PU

Features: Double-layer sponge & PE foam absorbs shocks, protects against drops and daily impacts;
Dedicated laptop zone, accessory storage, and quick-access pockets for all-in-one travel;
Dense fabric resists scratches, repels water, and wipes clean instantly;
Switch carrying styles;
attach to luggage with back strap;
PU handle for comfort;
Lightweight and portable;
Secures devices firmly;
dual zippers ensure quick access and added safety.

LBJB Series Shoulder Laptop Bag

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;
Built-in pearl cotton compartment, shock-absorbing and compression-resistant;
360° comprehensive protection for laptop;
Fabric is splash-proof and resists water penetration;
Double zipper pullers, smooth and easy to pull;
Lightweight and portable;
Large capacity, separate compartment design, can store laptops and respective accessories;
Can be carried on one shoulder, carried by hand, or buckled on the suitcase trolley.

LBJC Series Shoulder Laptop Bag

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;
Built-in pearl cotton compartment, shock-absorbing and compression-resistant;
360° comprehensive protection for laptop;
Fabric is splash-proof and resists water penetration;
Double zipper pullers, smooth and easy to pull;
Lightweight and portable;
Large capacity, separate compartment design, can store laptops and respective accessories;
Can be carried on one shoulder, carried by hand, or buckled on the suitcase trolley.

LBTA Series Horizontal Laptop Handbag

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;
Built-in pearl cotton compartment, shock-absorbing and compression-resistant;
360° comprehensive protection for laptop;
Fabric is splash-proof and resists water penetration;
Double zipper pullers, smooth and easy to pull;
Lightweight and portable;
Large capacity, separate compartment design, can store laptops and respective accessories.

LBTB Series Horizontal Laptop Handbag

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;
Built-in pearl cotton compartment, shock-absorbing and compression-resistant;
360° comprehensive protection for laptop;
Fabric is splash-proof and resists water penetration;
Double zipper pullers, smooth and easy to pull;
Lightweight and portable;
Large capacity, separate compartment design, can store laptops and respective accessories.

LBTC Series Horizontal Laptop Handbag

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;
Built-in pearl cotton compartment, shock-absorbing and compression-resistant;
360° comprehensive protection for laptop;
Fabric is splash-proof and resists water penetration;
Double zipper pullers, smooth and easy to pull;
Lightweight and portable;
Large capacity, separate compartment design, can store laptops and respective accessories.

LBTD Series Horizontal Laptop Handbag

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;
Built-in pearl cotton compartment, shock-absorbing and compression-resistant;
360° comprehensive protection for laptop;
Fabric is splash-proof and resists water penetration;
Double zipper pullers, smooth and easy to pull;
Lightweight and portable;
Large capacity, separate compartment design, can store laptops and respective accessories.

LBDA Series Laptop Sleeve

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;
Built-in pearl cotton compartment, shock-absorbing and compression-resistant;
360° comprehensive protection for laptop;
Fabric is splash-proof and resists water penetration;
Double zipper pullers, smooth and easy to pull;
Lightweight and portable.

LBDB Series Horizontal Laptop Sleeve

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;
Built-in pearl cotton compartment, shock-absorbing and compression-resistant;
360° comprehensive protection for laptop;
Fabric is splash-proof and resists water penetration;
Double zipper pullers, smooth and easy to pull;
Lightweight and portable.

LBDC Series Vertical Laptop Sleeve

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;
Built-in pearl cotton compartment, shock-absorbing and compression-resistant;
360° comprehensive protection for laptop;
Fabric is splash-proof and resists water penetration;
Double zipper pullers, smooth and easy to pull;
Lightweight and portable.

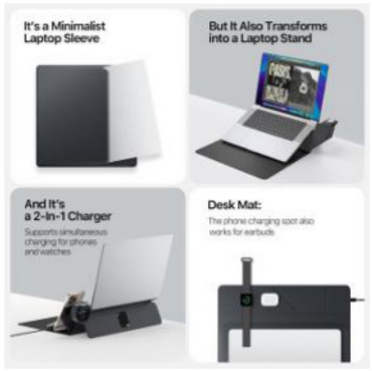

AirQ Series Wireless Charging Sleeve for Laptop

Material: Premium PU Leather

Features: All-in-one design: Combines sleeve, stand, and 2-in-1 charger—eliminates extra travel gear.;
Magnetic fast charging: 15W for phone/earbuds + 2.5W for watch with secure magnetic alignment.;
Instant laptop stand: Transforms for ergonomic viewing angles on the go.;
Quadruple charging protection: Guards against over-voltage, over-current, short-circuit, and overheating.;
Slim minimalist profile: Premium stitching and slim build for style and portability..

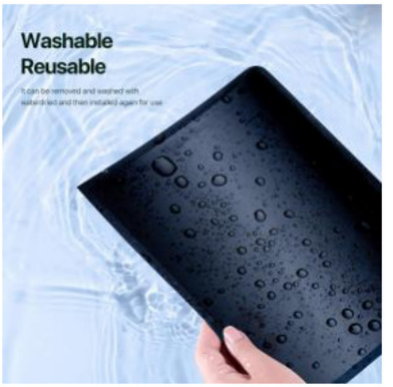

LENO Series Detachable Laptop Privacy Film

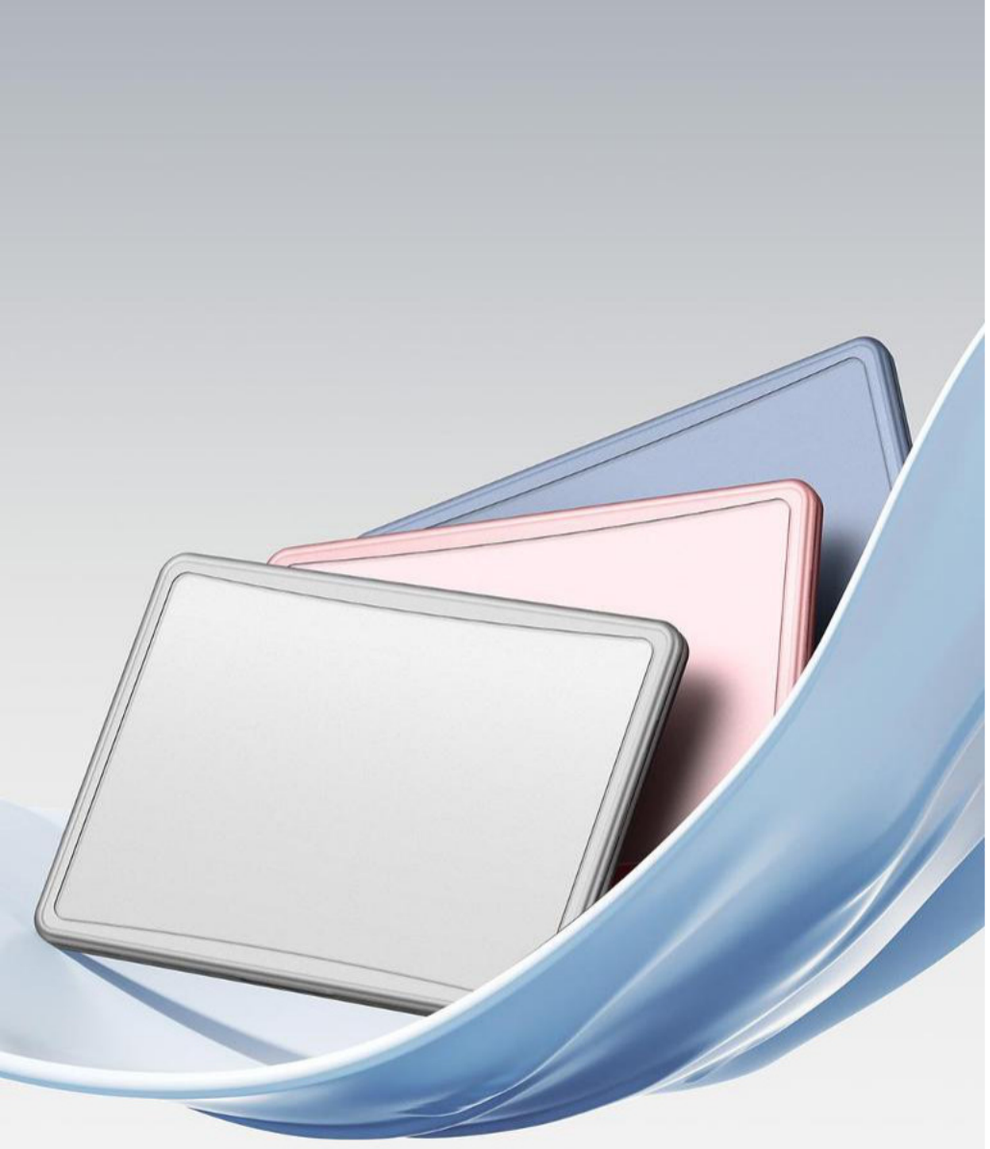

Material: PET

Features: 30° anti-peep, high-definition visible from the front, invisible from both sides;
Nano glue-free adsorption, no damage to laptop screen coating;
Automatic adsorption without bubbles, easy to remove;
0.35mm thickness, does not affect the closure of the laptop;
Washable and reusable.

LCGB Series Laptop Protective Case

Material: PC

Features: Sleek minimalist design with a lightweight feel, easy to carry
Premium PC material with matte finish, resistant to sweat, fingerprints, and scratches
Micro clip design allows for easy installation and removal without damaging the device
Smooth opening and closing, no impact on original device functionality
Precision-molded for a perfect fit, with anti-slip silicone pads for added stability

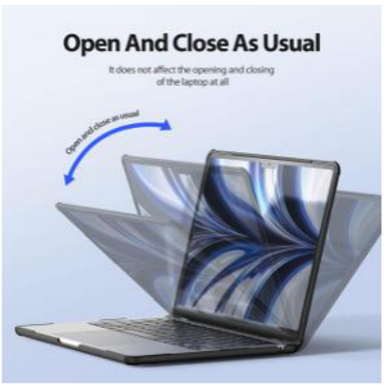

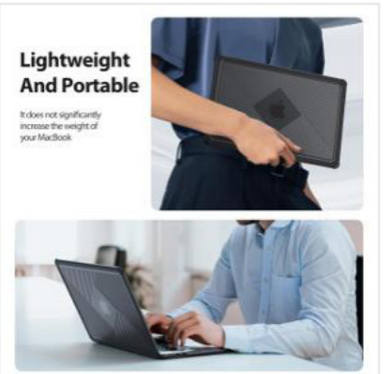

LCGH Series Laptop Protective Case

Material: TPU+PC

Features: Seamless fit, 360° full protection;
Anti-scratch and wear-resistant, anti-fingerprint;
Does not affect the opening and closing of the laptop;
Thin, light and portable;
Micro clip design, disassembly and assembly without damaging the machine;
With heat dissipation holes on the bottom;
The hole position is precise and does not affect the normal use of the laptop.

LCGM Series Laptop Protective Case

Material: TPU+PC

Features: Seamless fit, 360° full protection;
Anti-scratch and wear-resistant, anti-fingerprint;
Does not affect the opening and closing of the laptop;
Thin, light and portable;
Micro clip design, disassembly and assembly without damaging the machine;
With heat dissipation holes on the bottom;
The hole position is precise and does not affect the normal use of the laptop.

CM Series Transparent Mouse

Material: ABS+PC

Features: Bluetooth + 2.4G dual-mode wireless mouse;
Can connect two devices at the same time and switch with one click;
Mute button;
Ergonomic design, fits the palm of your hand;
Widely compatible with multiple operating systems;
Colorful backlight breathing light, switch colors with one click;
Built-in USB adapter;
Fast movement, accurate positioning.

DM Series Wireless Mouse

Material: ABS+PC+Silicone

Features: 4D 2.4G wireless technology with 10m stable range, anti-interference, and wired-like signal performance;
Ergonomic curves fit natural hand posture, ensuring comfort for palm/claw/fingertip grips during prolonged use;
Silicone scroll wheel, ABS-silicone materials, and 5-layer nano-coating for silky-smooth, wear-resistant durability;
Removable battery for instant swaps, adjustable DPI (1600/1200/800) to adapt to diverse scenarios;
Seamless multi-device compatibility (iOS/Windows/Android) with plug-and-play simplicity, no drivers required.

X-Shaped Laptop Stand

Material: aluminum alloy + silicone

Features: Five levels of height adjustable;
Suspended open design facilitates heat dissipation;
Large area of silicone, no damage to the device;
Widely compatible with laptops and tablets up to 17.3 inches;
Can be folded and easy to carry.

WATCH CASES & BANDS

OceanWave Series Silicone Strap

Material: stainless steel + silicone

Features: Light and weightless;
Snap-on interface, easy to disassemble and assemble;
Refreshing, breathable and comfortable to wear;
Washable and reusable.

KJ Series Magnetic Strap

Material: silicone + magnet

Features: Magnetic design, easy to take off and wear;
Elastic silicone, not tight on skin, moderate tightness;
Snap-on interface, easy to disassemble and assemble;
Can be washed and reused.

CS Series Magnetic Silicone Apple Watch Strap

Material: Silicone + Magnets + Aluminium

Colors: Black/ Starlight / BlueBlack / GreenBlack / BrownGrey

Made of treated soft silicone and magnetic closure for intense workouts and everyday wear.
Moulded magnets help maintain a secure, comfortable fit throughout the day.
Features magnetic, elegant, comfortable and washable, will make you stand out of the rest.

SD Series Magnetic Silicone Apple Watch Strap with Double-Sided Connector

Material: Silicone + Magnets + Stainless Steel

Colors: Black/Starlight Dark Gray/Light Gray Klein Blue/Beige
Light Pink/Light Green Light Yellow/Starlight

Made of treated soft silicone and magnetic closure for intense workouts and everyday wear.
Moulded magnets help maintain a secure, comfortable fit throughout the day.
Upgraded double-sided connector enables hassle-free insertion from either side.

OA Series One-Piece Magnetic Silicone Strap

Material: TPU+silicon+magnet

Features: Magnetic design, easy to take off and wear;
Integrated design provides comprehensive protection for the watch;
Soft silicone, comfortable and durable;
TPU watch case, disassembly and assembly will not damage the watch;
Can be washed and reused.

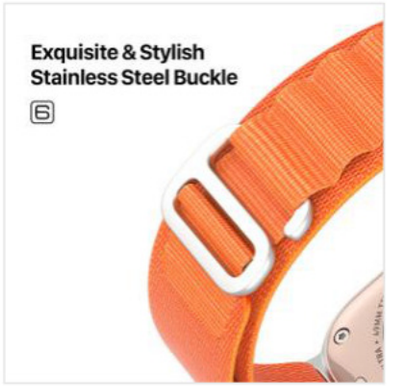

GS Series Double-layer Braided Loop Strap

Material: polyester fiber + stainless steel

Features: Double-layer woven breathable fabric;
Soft and skin-friendly, wearable for a long time without getting tired;
Rust-resistant and corrosion-resistant 6-shaped stainless steel buckle;
Snap-on interface, easy to disassemble and assemble.

YC Series Double-layer Braided Loop Strap

Material: aluminum alloy + nylon

Features: Made of double-layer nylon;
Seamlessly woven, light, soft and durable;
Hole chain structure, refreshing and breathable;
Snap-on interface, easy to disassemble and assemble;
Comfortable to wear.

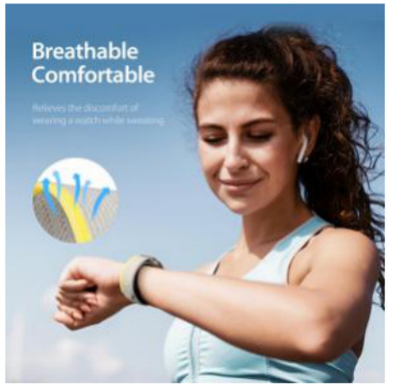

YJ Series Nylon Velcro Strap

Material: stainless steel + nylon

Features: Highly elastic nylon yarn fabric;
Light and weightless;
Snap-on interface, easy to disassemble and assemble;
Refreshing, breathable and comfortable to wear;
Velcro buckle, easy to take off and put on.

YE Series Nylon Velcro Strap

Material: Nylon Braided Strap + Zinc Alloy + Metal Connectors

Features: Lightweight and Comfortable;
Easy wearing with one-piece loop design;
Soft and skin-friendly double-layer nylon braid;
Multiple color options for versatile styling;
Lightweight and breathable, reduces sweat buildup.

YM Series Magnetic Fabric Strap

Material: Fabric + Magnets + Zinc Alloy + Aluminum Alloy

Features: Magnetic snap-on with 40 powerful cores for instant, secure attachment
Breathable, skin-friendly fabric for all-day comfort in any season
Reinforced loop buckle for sports-grade stability and anti-slip protection
1-second quick release—no buckles, just lift and detach
Stepless adjustment fits all wrist sizes

Mixture II Series Nylon Braided Strap

Material: stainless steel + nylon

Features: Highly elastic nylon yarn fabric;
Light and weightless;
Snap-on interface, easy to disassemble and assemble;
Refreshing, breathable and comfortable to wear.

Mixture Pro Series Nylon Magnetic Strap

Material: zinc alloy + nylon + magnet

Features: Highly elastic nylon yarn fabric;
Light and weightless;
Snap-on interface, easy to disassemble and assemble;
Refreshing, breathable and comfortable to wear;
Magnetic buckle, easy to take off and wear.

Mixture Ultra Series Nylon Magnetic Strap

Material: zinc alloy + nylon + magnet

Features: Highly elastic nylon yarn fabric;
Light and weightless;
Snap-on interface, easy to disassemble and assemble;
Refreshing, breathable and comfortable to wear;
Magnetic buckle, easy to take off and wear.

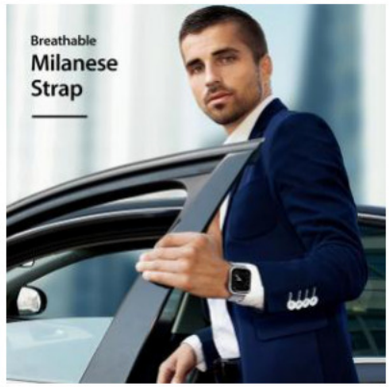

Milanese Series Stainless Steel Magnetic Strap

Material: stainless steel + magnet

Features: Magnetic design, easy to take off and wear;
Made of precision stainless steel;
Snap-on interface, easy to disassemble and assemble;
Refreshing, breathable and comfortable to wear.

Milanese Pro Series Stainless Steel Magnetic Strap

Material: stainless steel + magnet

Features: Magnetic design, easy to take off and wear;
High density and high corrosion resistance SUS444 stainless steel;
NP+CP double-layer coating, more scratch-resistant;
Snap-on interface, easy to disassemble and assemble;
Refreshing, breathable and comfortable to wear.

Milanese Air Series Stainless Steel Magnetic Strap

Material: stainless steel + magnet

Features: It is made of 430 corrosion-resistant stainless steel after weaving and polishing. It is cool and breathable, feels smooth to the touch, and is comfortable to wear on the wrist;

The magnetic buckle made of N52 strong magnets can easily fix the strap tightly on your wrist without moving;

It is suitable for almost all wrists and can be worn on a variety of occasions;

The repeatedly polished connector fits perfectly with the card slots on both sides of the dial. It can be disassembled and assembled with just a light push, which is very convenient to use.

Business Series Real Leather Strap

Material: cowhide + stainless steel

Features: Native cowhide, fine leather, natural color;
"Saddle stitch" hand stitching;
Rust-resistant and corrosion-resistant stainless steel buckle;
Soft, breathable and durable;
Snap-on interface, easy to disassemble and assemble.

YA Series Genuine Leather Magnetic Strap

Material: cowhide + zinc alloy + magnet

Features: Delicate leather, natural color;
"Saddle stitch" hand stitching;
Magnetic buckle, easy to take off and wear;
Soft, breathable and durable;
Snap-on interface, easy to disassemble and assemble.

YS Series Genuine Leather Strap

Material: Nylon Braided Strap + Zinc Alloy + Metal Connectors

Features: Lightweight and Comfortable;
Easy wearing with one-piece loop design;
Soft and skin-friendly double-layer nylon braid;
Multiple color options for versatile styling;
Lightweight and breathable, reduces sweat buildup.

Bamo Series Protective Case

Material: TPU+PC

Features: Ring-shaped four corners fully covered, wear-resistant and scratch-resistant;
The hole position is precise and does not affect the daily use of the watch;
There is no need to remove the protective case when disassembling the watch strap;
The back is hollow, which does not affect wireless magnetic charging;
Easy installation.

Tamo Series Protective Case

Material: TPU+PC

Features: Ring-shaped four corners fully covered, wear-resistant and scratch-resistant;
The hole position is precise and does not affect the daily use of the watch;
There is no need to remove the protective case when disassembling the watch strap;
The back is hollow, which does not affect wireless magnetic charging;
Easy installation.

Camo Series Protective Case

Material: TPU+PC

Features: Ring-shaped four corners fully covered, wear-resistant and scratch-resistant;
The hole position is precise and does not affect the daily use of the watch;
There is no need to remove the protective case when disassembling the watch strap;
The back is hollow, which does not affect wireless magnetic charging;
Easy installation.

Damo Series Protective Case

Material: TPU+PC

Features: Ring-shaped four corners fully covered, wear-resistant and scratch-resistant;
The hole position is precise and does not affect the daily use of the watch;
There is no need to remove the protective case when disassembling the watch strap;
The back is hollow, which does not affect wireless magnetic charging;
Easy installation.

Hamo Series Electroplated PC Hard Case

Material: PC

Features: Electroplating process, fashionable and gorgeous;
360° all-inclusive protection;
Transparent cover with sensitive touch operation;
The hole position is precise and does not affect the daily use of the watch;
There is no need to remove the protective case when disassembling the watch strap;
The back is hollow, which does not affect wireless magnetic charging;
Easy installation.

Eapa Series Tempered Glass Screen Protector

Material: high alumina tempered glass

Features: 9H hardness, explosion-proof and wear-resistant;
Full screen coverage to the edge for full protection;
Nano-oleophobic coating, sensitive touch, anti-fingerprint;
Full screen HD view;
Comes with installation auxiliary tools, easy to install.

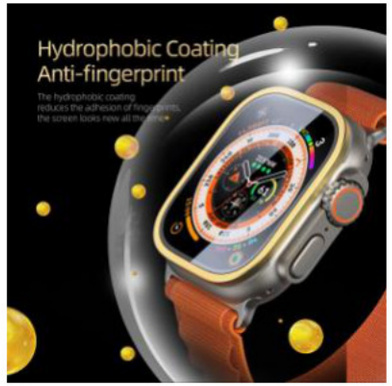

Flas Series Screen Protector With Metal Frame

Material: high alumina tempered glass + aluminum alloy

Features: Fashionable and gorgeous aluminum alloy frame;
9H hardness, explosion-proof and wear-resistant;
Full screen coverage to the edge for full protection;
Nano-oleophobic coating, sensitive touch, anti-fingerprint;
Full screen HD view;
Easy installation.

Pmma Series Composite Soft Screen Protector

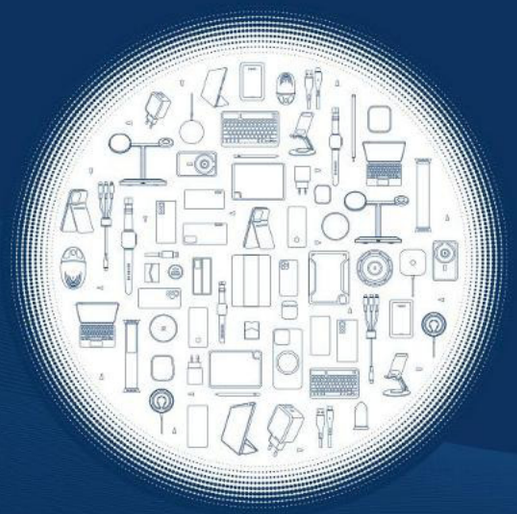

Material: TPE+PMMA

Features: Pmma composite material, high toughness, impact resistance;
Full screen coverage to the edge for full protection;
Nano-oleophobic coating, sensitive touch, anti-fingerprint;
Full screen HD view;
Comes with installation auxiliary tools, easy to install.

TWS CASE

PECA Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

PECB Series TWS Protective Case

Material: TPU

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

PECC Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

PECD Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

PECE Series TWS Protective Case

Material: TPU

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

PECF Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

PECG Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Pop-on switch;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

PECH Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Pop-on switch;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

PECI Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Pop-on switch;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

PECJ Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Pop-on switch;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

PECK Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Pop-on switch;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

PECL Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Pop-on switch;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

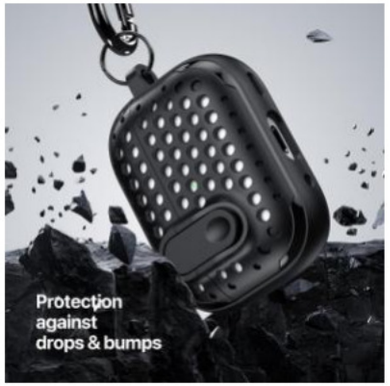

PECM Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Pop-on switch;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

PECN Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Pop-on switch;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

PECO Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Pop-on switch;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

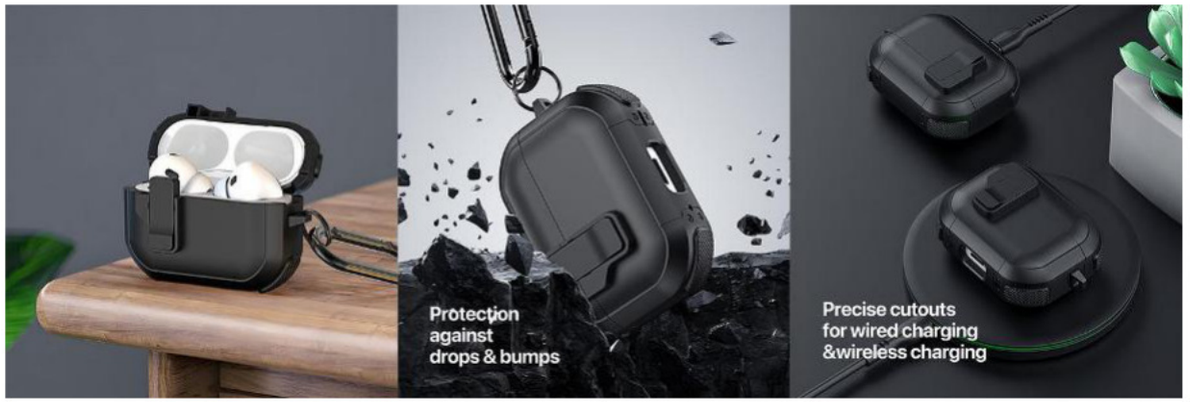

PECP Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Pop-on switch;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

PECQ Series TWS Protective Case

Material: TPU+PC

Features: Drop-proof and scratch-resistant for everyday protection;
Biometric stand enables multi-angle viewing;
Magnetic auto-pop lid allows charging without removal;
Dust shield blocks debris from charging port;
Skin-friendly material resists sweat/fingerprints, stays new.

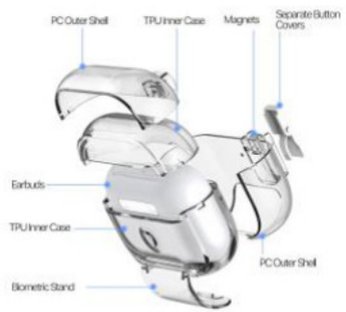

PECR Series TWS Protective Case

Material: TPU+PC

Features: Drop-proof and scratch-resistant for everyday protection;
Biometric stand enables multi-angle viewing;
Magnetic auto-pop lid allows charging without removal;
Dust shield blocks debris from charging port;
Skin-friendly material resists sweat/fingerprints, stays new.

SECA Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Pop-on switch;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

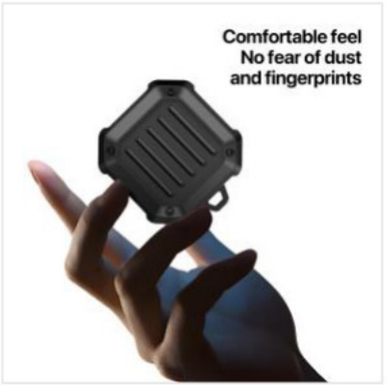

SECB Series TWS Protective Case

Material: TPU

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

SECC Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

SECD Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Pop-on switch;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

SECE Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Pop-on switch;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

SECF Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Pop-on switch;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

SECG Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Pop-on switch;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

SECH Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Pop-on switch;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

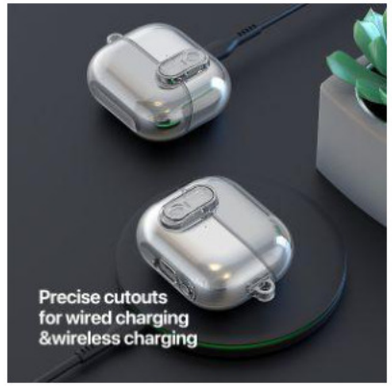

SECI Series TWS Protective Case

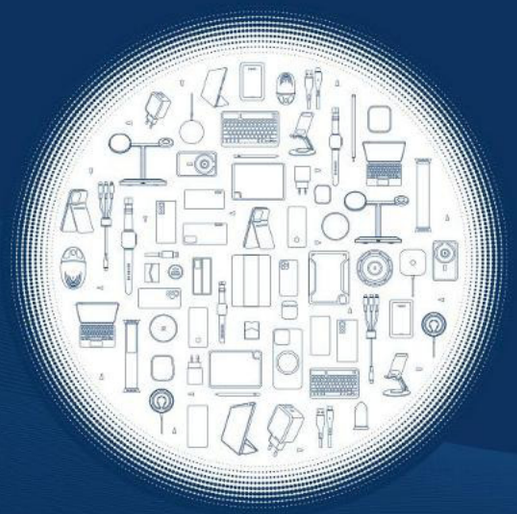

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Pop-on switch;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

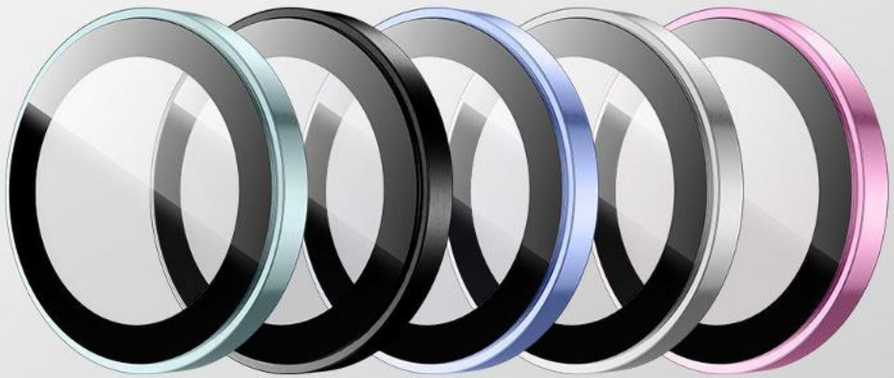

SCREEN PROTECTORS

HAWK Series Camera Lens Protector

Material: AF+AR tempered glass+aluminum alloy

Features: Its surface has a vacuum-plated oleophobic coating, which is highly anti-fingerprint and keeps the lens as clean as new;
The transmittance of AR anti-reflection film reaches 95%, restoring the high-definition pixels of the original lens;
Carefully developed lens protector with 0.15mm narrow frame;
It uses high-hardness tempered glass, which can easily cope with daily bumps;
It is compatible with all phone cases with a big hole for the camera.

Tempered Glass Screen Protector for Mobile Phone

Material: Aluminum tempered glass

Features: 9H hardness, explosion-proof and wear-resistant;
Full screen coverage to the edge for more comprehensive protection;
Nano-oleophobic coating, sensitive touch, anti-fingerprint;
Full screen HD view;
Automatic exhaust, easy installation.

Tempered Glass Privacy Film for Mobile Phone

Material: high alumina tempered glass

Features: 30° anti-peep, high-definition visible from the front, invisible from both sides;
9H hardness, explosion-proof and wear-resistant;
Full screen coverage to the edge for more comprehensive protection;
Nano-oleophobic coating, sensitive touch, anti-fingerprint;
Automatic exhaust, easy installation.

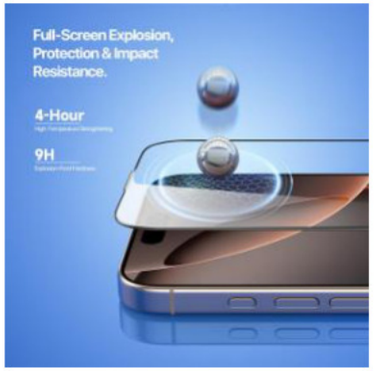

ROGA Series Tempered Glass Screen Protector for Mobile Phone(with Dust-free Auto Alignment Kit)

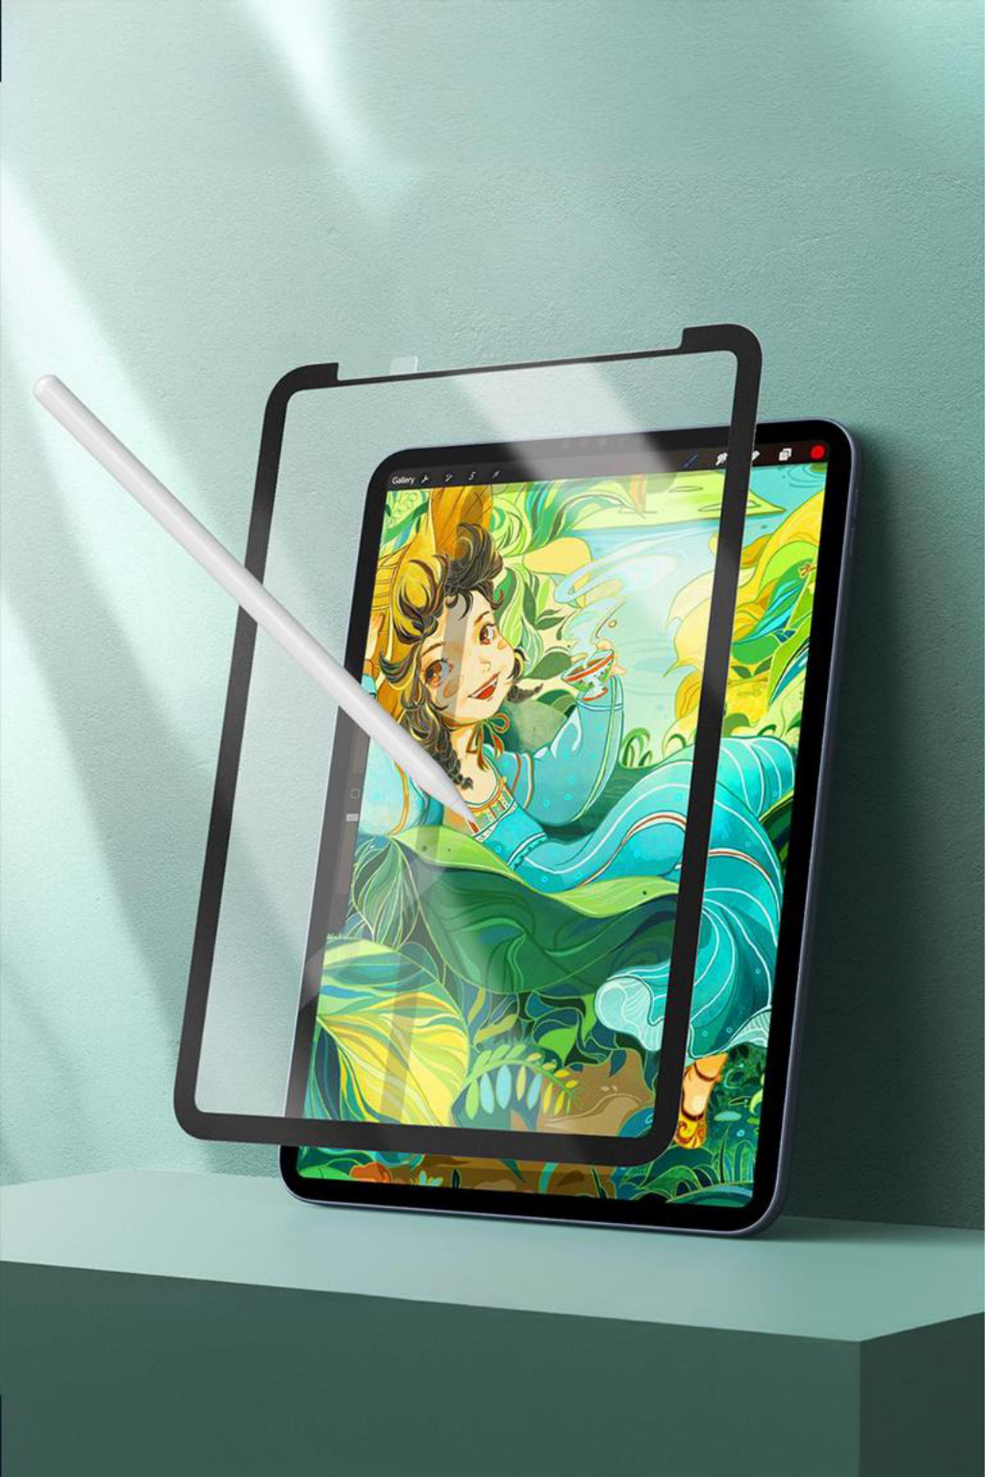

Material: High-Aluminum Glass

Features: Full-Screen HD Coverage with Original Display Quality;
9H Hardness & Anti-Shatter Protection;
Plasma Oleophobic Coatingt,
Resists fingerprints and stains while maintaining
a silky-smooth touch;
Dust-Free Installation Design, One-step alignment
ensures bubble-free, dust-proof application;
0.33mm Ultra-Thin Responsive Touch.

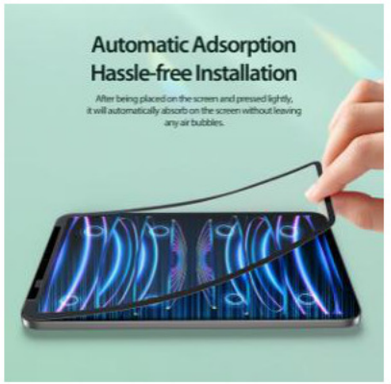

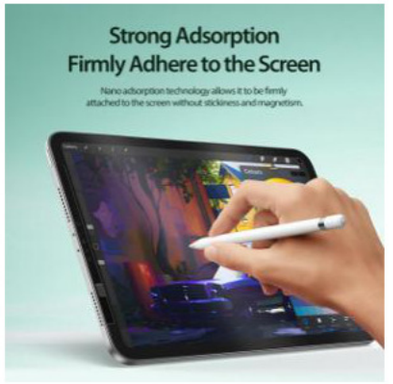

NAAD Series Removable Paper-Like Film

Material: PET

Features: Micro-matte surface, real paper writing experience;
Nano glue-free adsorption, no damage to the screen coating;
Automatic adsorption without bubbles, easy disassembly and assembly;
Fits the screen tightly without slipping or shifting;
Washable and reusable.

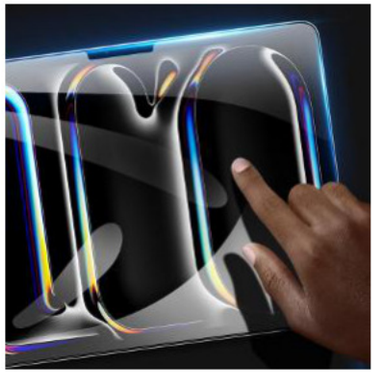

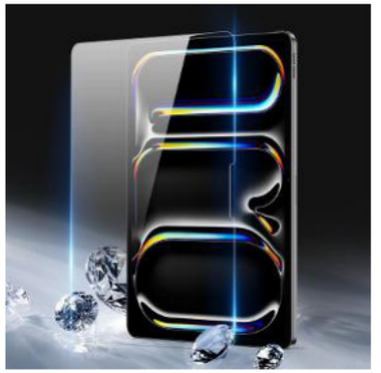

Tempered Glass Screen Protector for Tablet

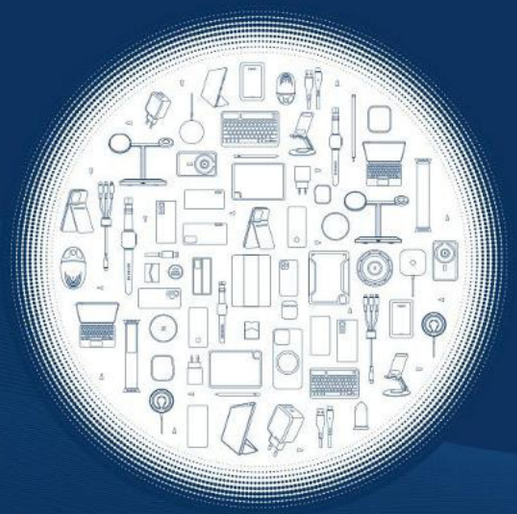

Material: Aluminum tempered glass

Features: 9H hardness, explosion-proof and wear-resistant;
Full screen coverage to the edge for more comprehensive protection;
Nano-oleophobic coating, sensitive touch, anti-fingerprint;
Full screen HD view;
Automatic exhaust, easy installation.

PHONE STRAPS

Plaz Series Cross-body Phone Lanyard

Material: zinc alloy + TPU + polyester
Features:
The rope is 6mm in diameter and very durable;
The length can be adjusted, ranging from 36-72cm;
It can not only be worn cross-body on the shoulder, but also hung around the neck or on the wrist;
The card and hook are strong and will not break;
The rope is skin-friendly and smooth, and it is comfortable to wear for a long time;
When charging the phone, there is no need to remove the phone case and rope.

Garden Series Cross-body Phone Lanyard with Swastika Pattern

Material: zinc alloy + TPU + polyester
Features:
The rope is 6mm in diameter and very durable;
The length can be adjusted, ranging from 36-72cm;
It can not only be worn cross-body on the shoulder, but also hung around the neck or on the wrist;
The card and hook are strong and will not break;
The rope is skin-friendly and smooth, and it is comfortable to wear for a long time;
When charging the phone, there is no need to remove the phone case and rope.

Garden Series Cross-body Phone Lanyard with Tile Pattern

Material: zinc alloy + TPU + polyester
Features:
The rope is 6mm in diameter and very durable;
The length can be adjusted, ranging from 36-72cm;
It can not only be worn cross-body on the shoulder, but also hung around the neck or on the wrist;
The card and hook are strong and will not break;
The rope is skin-friendly and smooth, and it is comfortable to wear for a long time;
When charging the phone, there is no need to remove the phone case and rope.

Garden Series Cross-body Phone Lanyard with Begonia Pattern

Material: zinc alloy + TPU + polyester
Features:
The rope is 6mm in diameter and very durable;
The length can be adjusted, ranging from 36-72cm;
It can not only be worn cross-body on the shoulder, but also hung around the neck or on the wrist;
The card and hook are strong and will not break;
The rope is skin-friendly and smooth, and it is comfortable to wear for a long time;
When charging the phone, there is no need to remove the phone case and rope.

Garden Series Cross-body Phone Lanyard with Broken Ice Pattern

Material: zinc alloy + TPU + polyester
Features:
The rope is 6mm in diameter and very durable;
The length can be adjusted, ranging from 36-72cm;
It can not only be worn cross-body on the shoulder, but also hung around the neck or on the wrist;
The card and hook are strong and will not break;
The rope is skin-friendly and smooth, and it is comfortable to wear for a long time;
When charging the phone, there is no need to remove the phone case and rope.

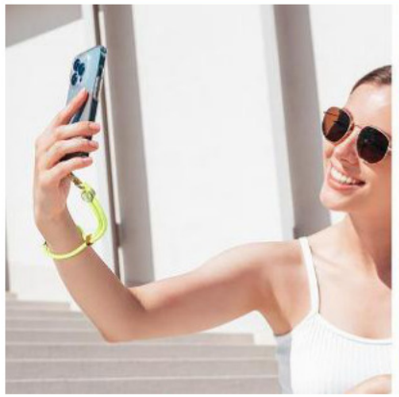

Garden Series Tile Pattern Phone Wrist Strap

Material: zinc alloy + TPU + polyester
Features:
The rope is 6mm in diameter and very durable;
It can lock your phone on your wrist to prevent it from being lost or dropped;
The buckle is adjustable to fit all wrists;
The card and hook are strong and will not break;
The rope is skin-friendly and smooth, and it is comfortable to wear for a long time;
When charging the phone, there is no need to remove the phone case and rope.

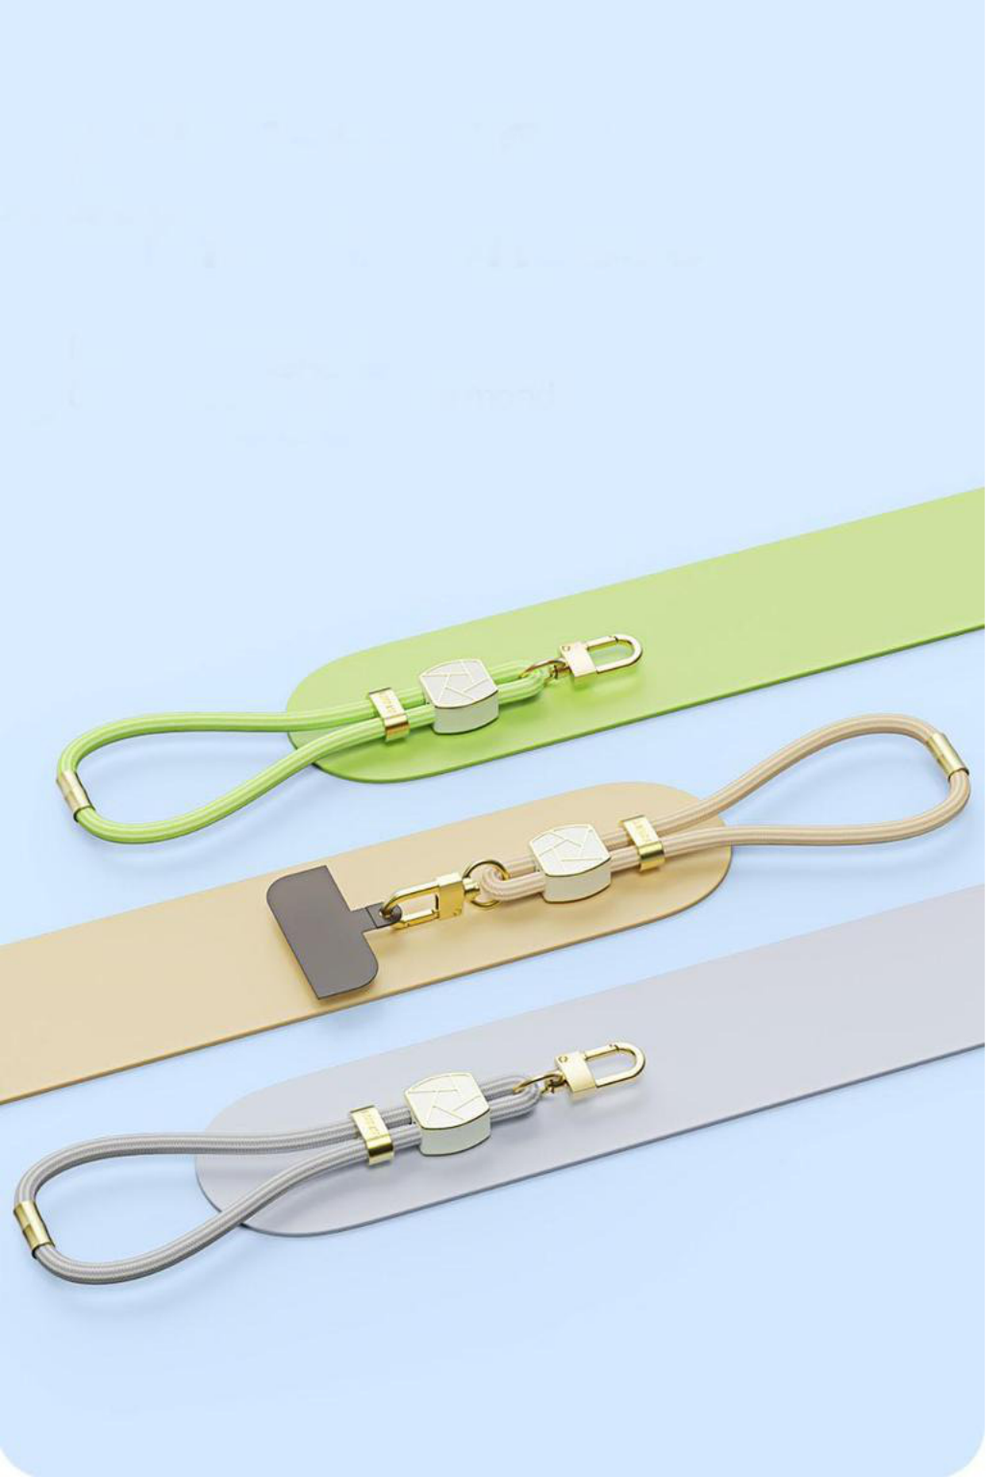

Garden Series Begonia Pattern Phone Wrist Strap

Material: zinc alloy + TPU + polyester
Features:
The rope is 6mm in diameter and very durable;
It can lock your phone on your wrist to prevent it from being lost or dropped;
The buckle is adjustable to fit all wrists;
The card and hook are strong and will not break;
The rope is skin-friendly and smooth, and it is comfortable to wear for a long time;
When charging the phone, there is no need to remove the phone case and rope.

Garden Series Broken Ice Pattern Phone Wrist Strap

Material: zinc alloy + TPU + polyester
Features:
The rope is 6mm in diameter and very durable;
It can lock your phone on your wrist to prevent it from being lost or dropped;
The buckle is adjustable to fit all wrists;
The card and hook are strong and will not break;
The rope is skin-friendly and smooth, and it is comfortable to wear for a long time;
When charging the phone, there is no need to remove the phone case and rope.

Garden Series Swastika Pattern Phone Wrist Strap

Material: zinc alloy + TPU + polyester
Features:
The rope is 6mm in diameter and very durable;
It can lock your phone on your wrist to prevent it from being lost or dropped;
The buckle is adjustable to fit all wrists;
The card and hook are strong and will not break;
The rope is skin-friendly and smooth, and it is comfortable to wear for a long time;
When charging the phone, there is no need to remove the phone case and rope.

Outdoor Series Multifunctional Phone Lanyard

Material: metal + nylon

Features:

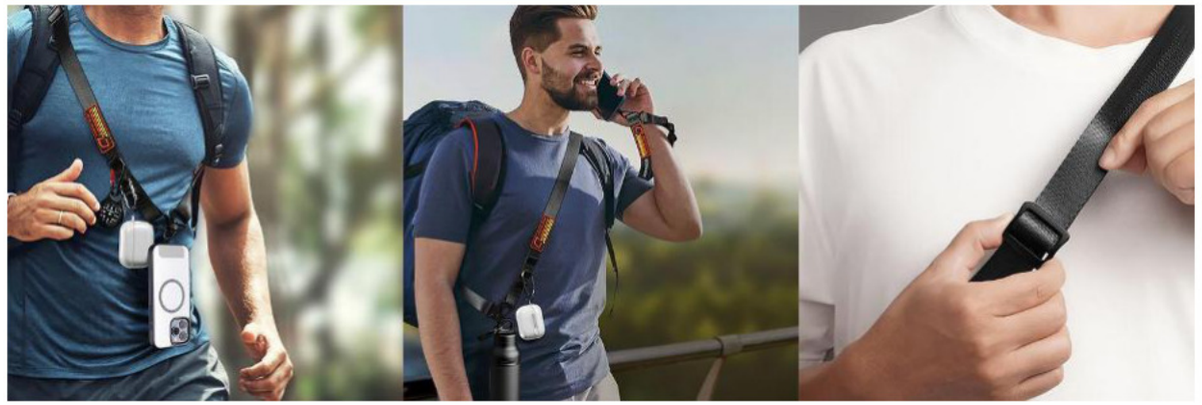

Strong and durable nylon rope with metal hook;

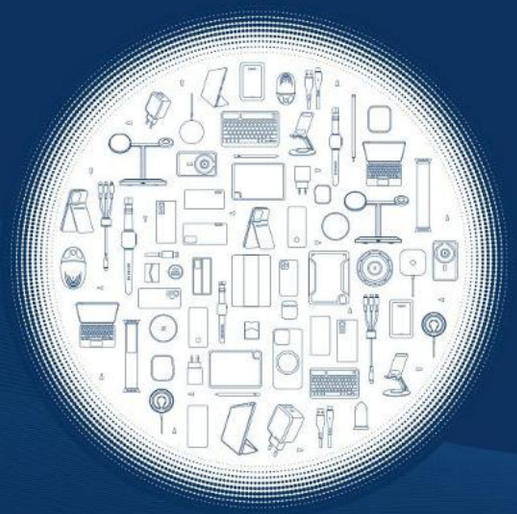

The length can be adjusted, it can be worn cross-body or around the neck, the 2.5cm rope width is very comfortable and does not squeeze the neck;

The short rope can be removed and used as a wrist rope;

There are many hanging points on the rope, you can hang small parts of life on it, such as sunglasses, keys, small flashlights;

The metal hook is suitable for computer bags, chest bags, shoulder bags, camera bags.

Cable & Charger

H1 Qi2.2 25W Magnetic Wireless Charger Pad

Material: Aluminum Alloy + PC

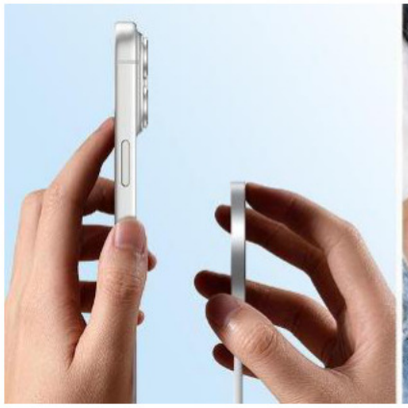

Features:Qi2.2 certified, supports 25W magnetic wireless fast charging for iPhone 16-17 series and 15W for iPhone 12-15 series

Built-in N52 strong magnets for automatic, precise alignment and secure attachment

360° rotatable design, allows landscape or portrait use while charging

Supports fast charging through cases, compatible with official MagSafe and magnetic phone cases

Triple temperature control protection (aluminum shell + magnetic shielding sheet + FOD), safe for battery health

AUTO Series Aluminum-Alloy Magnetic Coiled Cable (C-L/C-C)

Material: Nylon braided cable + aluminum alloy

Features: Innovative magnetic self-coiling design with 600G strong magnetism for tangle-free, one-touch storage

Supports up to 60W PD fast charging and 480Mbps data transfer

Flat braided cable is compact and portable, easily fits into pockets or bag gaps

Built with 5 thickened tinned copper cores and magnetic layer for stable transmission and durability

Universal USB-C port widely compatible with phones, tablets, laptops, and more

LCBA Series Zinc Alloy Silicone Lanyard Cable(C-L/C-C)

Material: Liquid soft silicone + zinc alloy

Features: 2-in-1 lanyard and detachable data cable for convenient portability

Supports 60W fast charging and 480Mbps data transfer for high efficiency

Liquid soft silicone cable is skin-friendly, tangle-resistant, and durable

Zinc alloy connector resists oxidation; spiral lock ensures secure attachment

Fully functional USB-C port with broad compatibility across devices

SILI Series Silicone Cable (C-L/C-C)

Material: TPE + silicone

Features: Supports up to 60W PD fast charging, charges iPhone to 50% in 30 minutes, and delivers full-speed charging for laptops and tablets

480Mbps high-speed data transfer allows simultaneous charging and file transfer for efficiency

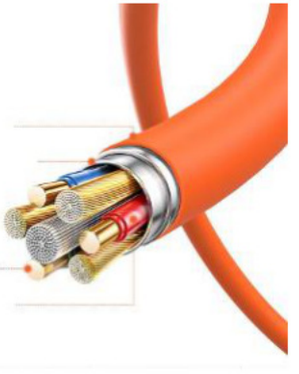

Eco-friendly silicone cable is skin-friendly, flexible, bend-resistant, and durable

Thickened copper core with multi-layer shielding ensures stable charging, low heat, and high efficiency

Fashionable minimalist design with rounded edges, available in multiple colors for style and function

WLCM Series Braided Cable with Gradient Connector (C-L/C-C)

Material: TPE + PVC + Nylon

Features: Supports up to 27W Apple fast charging, charges iPhone to 50% in 30 minutes, and is backward compatible with 20W and standard charging

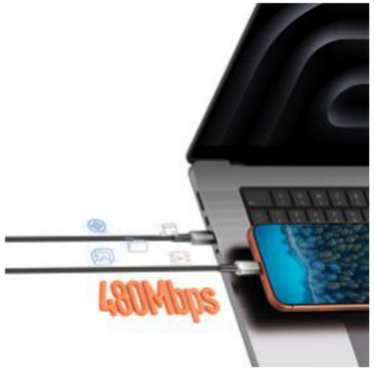

480Mbps high-speed data transfer enables stable and efficient file synchronization

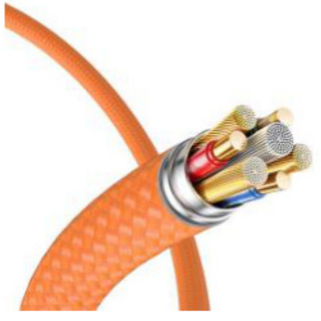

High-density nylon braided cable with extended SR tail design is pull-resistant, bend-resistant, and durable

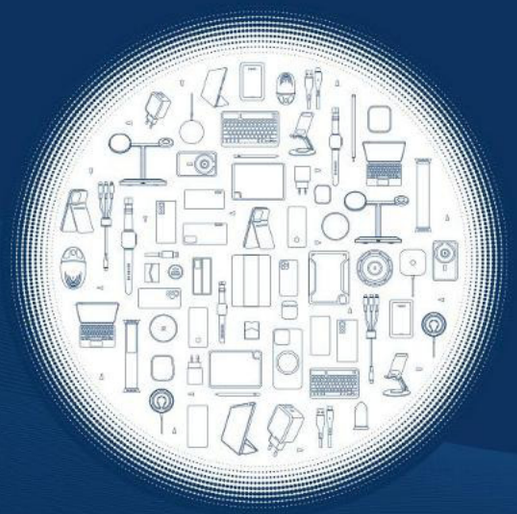

Multi-layer shielding and thickened copper core ensure efficient transmission, anti-interference, and safe charging

Fashionable gradient transparent connector with streamlined design offers aesthetic appeal and multiple color options

OTHER ACCESSORIES

FLEX Series Nylon Phone Crossbody Bag

Material: Magnet+built-in foam padding

Features: Splash-resistant high-density nylon with waterproof coating, blocks splashes and moisture to safeguard digital gear
Light thin breathable fabric, soft inner lining prevents screen scratch
Three-pocket partition design for categorized clutter-free storage
Ultra-light only 117g, burden-free long-time carry
Adjustable & detachable shoulder strap for flexible wearing
Magnetic buckle avoids small belongings falling off, digital-friendly all-round protection

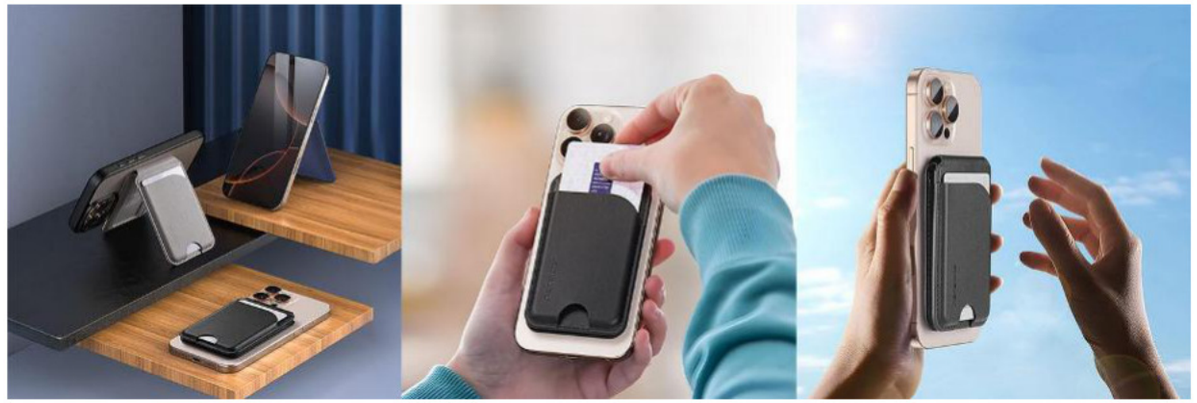

Neva Series Magnetic Wallet Stand

Material: PU+magnet+nylon

Features: Made of skin-friendly PU leather which is smooth and comfortable to the touch and built-in strong N52 magnets;
There are 3 card pockets in total (2 of which have anti-theft function), which can store up to 5 cards;
There is a shaft in the middle of wallet, and the maximum opening angle can reach 165°;
It can be used as a mobile phone stand, which can support the mobile phone horizontally/vertically, and the angle of the stand can be adjusted at will through the shaft.

ARCH Series Rhythm Style Magnetic Wallet Stand

Material: PU+magnet+nylon

Features:2-in-1 magnetic card holder and stand, functions as both wallet and phone stand
Three-slot design holds up to 5 cards; external pressure clip keeps even a single card secure
Internal slots feature RFID-blocking material to prevent card skimming
Strong N52 magnets for secure attachment; supports landscape and portrait modes with multiple adjustable angles
Sleek rounded design with fine stitching and soft PU leather for a durable, comfortable feel

PAPO Series Butterfly Style Magnetic Wallet Stand

Material: PU+magnet+nylon

Features:2-in-1 magnetic card holder and stand, functions as both wallet and phone stand
Three-slot design holds up to 5 cards; pressure clip keeps even a single card secure
Internal slots feature RFID-blocking material to prevent card skimming
Strong N52 magnets for secure attachment; supports landscape and portrait modes with up to 135° adjustable angle
Unique rounded shape with bright, vibrant colors, slim and portable

KERN Series Business Style Magnetic Wallet Stand

Material: PU+magnet+nylon

Features:2-in-1 magnetic card holder and stand, functions as both wallet and phone stand
Three-slot design holds up to 5 cards; elastic pocket keeps even a single card secure
Internal slots feature RFID-blocking material to prevent card skimming
Strong N52 magnets for secure attachment; supports landscape and portrait modes with up to 135° adjustable angle
Geometric stitching design with a simple business style and sophisticated color option

Mawa Series Magnetic Wallet Stand

Material: PU+magnet

Features: With MagSafe magnetic suction function;
